

Residents of Overlook neighborhood -

This letter is being sent to give notice that there is a road improvement project schedule in the coming weeks that might impact you. The Portland Bureau of Transportation has approved a street improvement project on Delaware & Sumner Street. Ref the attached logistics flyer to show the specific locations.

Schedule Summary:

Delaware Street – Starts on December 14th 2020 and is expected to take approximately 2 weeks.

Sumner Street – Start on January 4th 2021 and is expected to take approximately 2 weeks.

Weather Challenges:

It is important to know that weather will play a factor in the completion of this work. PBOT has specific standards and specifications that must be followed by the contractors performing the work to ensure a quality product is delivered.

If weather appears to impact our duration of work, residents will be notified of this challenge.

Resident Access, Garbage & Recycle Pickup, Parking, & Sidewalks:

Sidewalks will remain open to the public at all times. While the street is under construction we ask that residents and visitors abide by the construction signage and not drive on the streets until work is complete and signs are removed.

Turner Construction will help facilitate garage & recycle pickup by moving cans to a location that the trucks can access and return to the resident's driveway.

Residents will be responsible for parking their vehicles outside the work zone during the duration of construction. Please plan ahead and relocate your vehicles 1 day prior to start of work.

Contact Information:

If at any time you have questions or concerns, please feel free to contact Collin with Turner Construction via email at cmfoster@tcco.com.

We appreciate your patience and understanding as we work to improve your neighborhood streets.

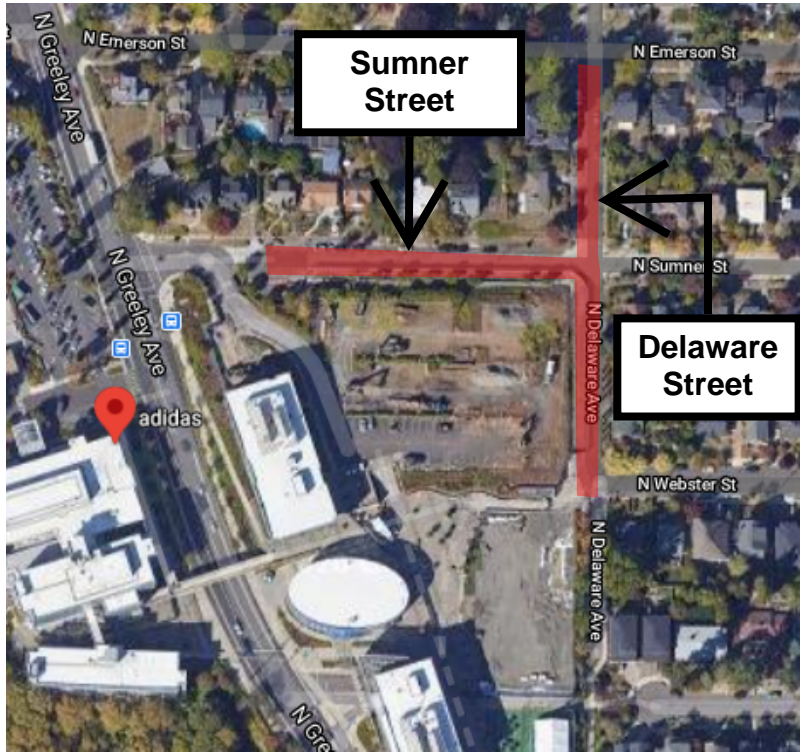

Collin Foster

A handwritten signature in blue ink, appearing to read "Collin Foster".
